

Janet M. Palmer,
Sr. Grants & Contracts Analyst
Research Management Services (RMS)
Johns Hopkins School of Medicine

I'm a trained Sr. Grants & Contracts Analyst providing financial management support that includes grant funding for research and clinical trials in the SOM Research Management Services (RMS) department. I've been managing departmental budgets since 1996 with a focus on awarded grant funding. After managing pre- and post -awards grant activity for five years in the Institute for Clinical and Translational Research (ICTR), I moved to RMS to focus more on the management of clinical trials research funding.

I started my research administration career in JHU's Research Administration office as a Limited Submissions Specialist in 2010. I had a great opportunity to co-present a session on Limited Submission at the NCURA Regional 5 Conference in 2015 and I'm entering my second year presenting on Budgets and Finance for the SON.
